

Work Base Learning Field Study Application Grades 3-6

The main objective of Career Awareness Field Study is to acquaint students with the world of careers and what people do in their careers.

Example: If a sixth grade field trip is to a planetarium, in addition to site seeing, arrangements should be made in advance for students to hear from an astronomer about what he/she does at the planetarium. The students should witness the scientist carrying out some of his/her duties at the planetarium. The presenter may briefly discuss the training required for their job, salary possibilities, and job satisfaction related to their career.

Name of Teacher (s): _____

School: _____ **Grade:** _____

Number of Students: _____ **Date of Activity:** _____

Principal Approval: _____ *(principal's signature)*

Your application will be reviewed by a committee, and approved according to the content of your answers to the following questions.
