

## **Seismic Evaluation RFP**

Provo City School District is accepting technical proposals from qualified engineering firms to provide Seismic Evaluation of the schools in the district. The purpose of the study is to develop an understanding of the seismic stability of the district's buildings. Recommendations and cost estimates to upgrade buildings to various seismic rating levels will be required to aid in budgeting future improvement projects.

### **Qualifications**

Provide the following information:

1. Your firm's qualifications in performing seismic evaluations.
2. Names and professional qualifications of persons who will be assigned to the project.
3. List of similar projects completed by your firm along with names of individuals who may be contacted as references.

### **Scope of Work**

Each building and each individual addition to a building will be evaluated using the following procedure:

1. Study available construction drawings.
2. Perform on-site observations for each building.
3. Using ASCE 31-03, FEMA 356 and code level to preserve life, perform the following for each building & addition:
  - a. List deficiencies
  - b. List remedial measures required to correct deficiencies
  - c. Give a final seismic rating of Good, Fair, Poor or Very Poor
  - d. List cost estimates

The findings for all the buildings in the study will be summarized in a written report. In addition, firms will prioritize retrofit projects.

### **Number of Schools**

8 Elementary Schools  
2 Middle School  
2 High Schools

**Proposals must be received in a sealed enveloped by March 9<sup>th</sup>, 2pm, to the following address:**

Attn: Tina Fluehe  
Purchasing Department  
Provo City School District  
280 W 940 N  
Provo UT 84604

### **Submit questions to:**
